Profile

Front-end developer with **4+ years of experience** building clean, scalable, and high-performance web applications. Proficient in **Next.js, React, and TypeScript/JavaScript**, with a strong focus on user experience, maintainable code, and modern frontend technologies.

Skills

- **Languages & Frameworks:** Next.js, React.js, TypeScript, JavaScript
- **Styling:** Tailwind, Shadcn UI, SCSS/SASS, Material UI
- **State Management:** Zustand, Redux Toolkit
- **Testing:** Vitest, React Testing Library, Unit & Integration Testing
- **Practices & Tools:** Git (Husky, Conventional Commits), Agile/Scrum, Storybook, Clean Code, SOLID, DRY, Design Patterns
- **Real-time & PWA:** WebSocket (SignalR), Service Workers (Push Notifications, Offline Support, PWA)

Professional Experience

usedConex, Senior Frontend Developer — 08/2025 – Present | USA · Remote

- Developed and maintained a role-based CRM platform using **React** and **TypeScript**, implementing core modules including Orders, Sales Pipeline, Inventory, Depots, Users, Tickets, and Notifications.
- Architected and migrated the frontend to a scalable **Turborepo monorepo**, creating reusable shared packages for API clients, components, providers, utilities, and types across multiple applications.
- Designed and implemented a granular **permission-based access control system** supporting role-specific access to menus, sections, tabs, columns, filters, tables, and actions.
- Built complex sales and operational workflows including Commissions, Discounts, Sales Tax, Refunds, Contracts, Order Notes, Announcements, and Analytics, integrating them with backend APIs and real-time updates.
- Established frontend testing practices using **Vitest**, **React Testing Library**, and **MSW**, while applying Clean Code, SOLID, DRY, and Design Patterns to maintain a scalable and maintainable codebase.

Rayteb, Frontend Developer — 07/2024 – 07/2025

- Developed an appointment scheduling system for public hospitals and private clinics using **Next.js**, enabling patients to book appointments and verify their information through integrations with government medical organizations such as Social Security Insurance and Health Insurance — cutting average appointment booking time significantly.
- Built a real-time support chat system using **React** and **WebSocket**, enabling seamless communication between patients and support representatives and measurably improving response times and customer satisfaction.
- Engineered a doctor profile platform using **Next.js**, showcasing doctors' backgrounds, experience, and professional history, which contributed to higher patient engagement with doctor profiles.
- Created a **React**-based dashboard for doctors to manage and prescribe medications, streamlining the prescription workflow and reducing time spent on administrative tasks.

Sparkbridge Incubator Ltd, Front-end Developer — 04/2023 – 06/2024 | Canada·Remote

- Led and organized the front-end development team, driving the adoption of modern technologies and migrating two legacy websites to **React**-based Single-Page Applications (SPAs), improving page load speed and user retention.
- Mentored junior developers, conducted in-depth code reviews to ensure high code quality, and led the development of two scalable React-based dashboards serving over **2,000 active users**.
- Delivered **10 fully functional MVPs** within 12 months using **Next.js** and Supabase's serverless architecture, consistently meeting tight deadlines while maintaining high-quality standards.

Minogar, Frontend Developer — 03/2022 – 03/2023

- Designed and developed an e-commerce platform using **Next.js**, implementing advanced rendering strategies (SSR & SSG) to optimize performance and SEO, reducing page load time and increasing organic traffic.
- Launched a **React**-based admin panel for uploading and managing 3D models for AR web experiences, including comprehensive product management features.

Education

Associate's degree, software engineer, Shahab Danesh University

Languages

Persian — Native Proficiency, **English** — Bilingual Proficiency
